

# TIMELESS SERENITY IN NATURAL TEXTURES

The Essence of Kophi Ivory

Soft light filters through Kophi Ivory, illuminating interiors with a sense of quiet sophistication.

Crafted from 90% Ramie and 10% Bamboo, this fabric captures the gentle irregularity of hand-woven textiles — natural, breathable, and beautifully imperfect.

Each strand tells a story of organic elegance, combining ramie’s subtle luster with bamboo’s earthy undertones. The result is a fabric that feels both refined and grounded — a perfect harmony between nature and modern design.

## Textured open weave with visible bamboo accents

The ramie threads create a soft linen-like transparency, diffusing daylight with warmth and clarity. Bamboo fibers introduce natural rhythm and tonal depth, giving the surface a handcrafted appeal. This balanced blend achieves a textile-like softness that complements both minimalist and layered interiors.

*“We believe natural materials should speak quietly — their beauty revealed in texture, not excess.”*

# Scandinavian- inspired palette

In this project, Kophi Ivory was chosen for its ability to soften geometric architecture without compromising modern aesthetics. The shades filter sunlight into a warm, ambient glow — transforming rigid lines into inviting spaces. Paired with neutral walls and organic furnishings, Kophi Ivory integrates seamlessly into a Scandinavian-inspired palette that values light, calm, and texture. This installation demonstrates how the Kophi collection enriches contemporary interiors with natural depth and timeless simplicity.

# A Living Texture

Kophi Ivory embodies a lifestyle — tranquil mornings, tactile comfort, and the quiet rhythm of nature inside the home.

Its warm tone and woven irregularities evoke the feeling of handcrafted textiles found in coastal and modern rustic interiors alike.

Whether layered with sheer draperies or standing alone, it transforms spaces with a sense of effortless refinement.

*Design Philosophy:  
Organic authenticity. Refined fabrication. Timeless design.*

# Kophi

- Material: 90% Ramie + 10% Bamboo
- Color: Ivory (Warm Neutral)
- Weave: Textured open weave with bamboo accents

Every Kophi – Ivory shade reflects the beauty of imperfection – a delicate balance between refined craftsmanship and organic character.

The ramie base lends a soft, linen-like transparency, while the subtle bamboo streaks create a natural rhythm that feels both tactile and serene.

This fabric celebrates simplicity and warmth, transforming spaces with its gentle texture and naturally sophisticated aesthetic.
